

### **REMARKS**

The present Amendment is in response to the Examiner's Office Action mailed December 14, 2004. Claims 1-14 remain pending in view of the above amendments.

Reconsideration of the application is respectfully requested in view of the above amendments to the specification and the following remarks. For the Examiner's convenience and reference, Applicant's remarks are presented in the order in which the corresponding issues were raised in the Office Action.

Please note that the following remarks are not intended to be an exhaustive enumeration of the distinctions between any cited references and the claimed invention. Rather, the distinctions identified and discussed below are presented solely by way of example to illustrate some of the differences between the claimed invention and the cited references. In addition, Applicants request that the Examiner carefully review any references discussed below to ensure that Applicants understanding and discussion of the references, if any, is consistent with the Examiner's understanding.

#### **I. Objection to Specification**

The Examiner objected to the drawings due to the absence of any description in the specification of Figures 5A and 5B. In response, Applicants have deleted sheet 4 of the drawings (Figures 5A and 5B), thereby rendering the objection moot. Withdrawal of the rejection is respectfully requested.

Applicants have further edited the specification to refer to Figure 1B.

#### **II. Allowed Subject Matter**

The Examiner's allowance of claims 1-14 is appreciated. Applicants wish to thank the Examiner for the careful review and allowance of those claims. It is believed that each of the pending claims are now in a condition for allowance.
